

Reduce your exposure risk with Rope Access Solutions

In recognition of health measures being put in place around the globe, we understand our clients' need to reduce head count at sites in order to practice safe social distancing guidelines and reduce risk of COVID-19 infection.

Safety is always a priority and we strive to provide solutions that increase safety and reduce risk and exposure.

Our Rope Access solutions are the safer and more productive approach when doing projects at heights. Our teams are composite crews with multi-disciplined trades that allow us to have less people on site.

Acuren rope access teams can provide a greater than 50% average reduction to schedule and head count.

In one year, we saved clients more than 1 Million exposure hours

TIME SAVINGS + REDUCED HEAD COUNT

REDUCED RISK

Benefits at a Glance

- Less people on site
- Easier to maintain social distancing even at heights
- Get critical work completed with lower risk
- Lower cost
- Additional benefits when paired with our robotics and UAV capabilities
